14 Days of Precision:
Experience Extended Monitoring with the new NH-301

Norav's NH-301 offers enhanced diagnostic accuracy with features like chronological event sorting and beat differentiation. The software supports up to 14 days of monitoring and is optimized for speed. It includes an auto-save function for reliability, is compatible with Norav's ECG Management System, and offers hotkey shortcuts for efficiency. Additional features include Excel export and continuous data backup.

IMPROVED RELIABILITY
Stable analysis with very large recordings : 14 day, 12 lead

PERFORMANCE ENHANCEMENTS
Fastest Holter mechanism to download and Analyze records. Optimized for powered GPUs & CPUs

DATA LOSS PROTECTION
Auto-save record states to prevent data loss in case of unexpected events like power off or system crash.

COMPATIBILITY
Tailored to work seamlessly with Norav ECG Management System (NEMS-Q, NEMS-Web). and our devices : NR Series, DL series

NEW FEATURES

NEW!

Patient: Emily Wilson   ID: 33456782346

EVENT MANAGEMENT
Sort events either chronologically or by type.

- **Events- Min/Max HR & RR:**
  Now with multiple examples of enhanced diagnostic accuracy.
- **Event Report:**
  Sort events either chronologically or by type, giving you more control over your data.

DATA ANALYSIS

Differentiate beats with unique colors and relabel them.
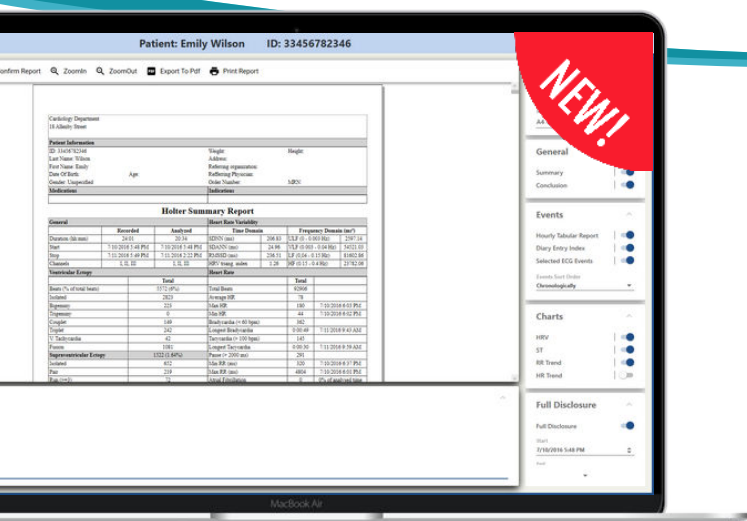

- **Overlay in Templates:**
  Differentiate beats with unique colors and relabel them separately.
- **Artifact Label Added:**
  Artifact beats are not calculated for events, increasing reliability. Replaces questionable beats
- **Analysis Page:**
  Include only a part of a large Excluded section, offering more flexibility.

ADDITIONAL FEATURES

Export reports to Excel and continuous data backup.

- **Export to Excel:**
  Tabular reports can now be exported directly to Excel.
- **Continuous Data Backup:**
  Never worry about losing important data again.

USER INTERFACE

Zoom In/Zoom Out of Trends for a detailed view.

- **Zoom In/Zoom Out of Trends:**
  Easily enlarge sections for a more detailed view.
- **Physical Activity Display:**
  Now shown on the analysis screen and elsewhere for better context.
- **Template and Page Views:**
  See selected beats in both views for a more comprehensive analysis.
